MESSAGE FROM THE FOUNDER

2018 and 2019 (YTT was founded at the end of 2017) were the first two years of our existence. Two years spent growing from an idea, to forming research and training teams, developing learning-programs and establishing a clear direction so that next year, we will become a fully-formed humanitarian organization ready to develop, implement and impact.

Therefore, though we are a French registered (Association 1901) non-profit since the end of 2017, these first two years were operated on a part-time basis, with a small team of volunteers and this YTT Development Report 2018-2019 is a brief overview of our research & development work rather than a more conventional Annual Report which is something that we will begin to publish from next year.

Finally, I would like to thank with all my heart the YTT team, without their hard-work, dedication and belief in what we are doing and where we are going, YTT would not be who we are today, on the verge of an extraordinary human adventure.
